Zeb Griffin 352.630.7547 & Dean Saunders, ALC, CCIM 863.648.1528
Volusia Hunting Property is a unique chance to own a piece of old Florida at a very fair price. This property consists of the classic Florida landscape that supports wildlife of all kinds. Located due east of Lake Harney off of Underhill Branch Road, this property is surrounded by several other large wooded tracts. This piece has a small road system that winds through the property allowing hunters to easily access stands. The gorgeous live oak hammocks provide an excellent habitat for the avid bow-hunter. The hammock and scattered pines roll off to a large, mature cypress swamp that provides excellent places for turkeys to roost. This area could also provide hunters with opportunities at taking wood ducks in the cypress ponds. If you are looking for hunting property with natural beauty and diversity, this tract could be the one for you!
